

The Lake Huron Centre for Coastal Conservation is a registered non-profit, charitable organization dedicated to the conservation of Lake Huron's natural shoreline environment.

Through education, research, community stewardship and its technical advisory service, the Coastal Centre helps individuals, community groups and municipalities work with the coastal environment to minimize their impact.

By supporting its efforts, you will help to ensure that we pass on a positive environmental legacy to our future generations.

OUR PAST SUCCESSES...

Recipient of the 2004 State of the Lakes Ecosystem Conference Success Story award.

Development of educational resources kits for elementary students on Lake Huron's sensitive coastal ecosystems.

Research on water quality, climate change and dune processes.

Develop management strategies to assist communities to conserve coastal ecosystems.

Host the biennial "Is the Coast Clear?" conference on Lake Huron's coastal environment, as well as special issue workshops and symposia.

OUR PRIORITIES ...

WATER QUALITY

The quality of our nearshore waters has become a point of great concern to the Lake Huron community in recent years. The scope of the problem is regional, but the most effective efforts to improve water quality will be made at the grass roots level.

BIODIVERSITY

The biological diversity of Lake Huron's coast being compromised by over development, fragmentation of forest areas, the spread of alien invasive species, and damage to sensitive coastal environments. Biodiversity is important to ecosystem health, to the recreation and tourism economies, and even to human health.

COASTAL PROCESSES

Coastal processes, like water level fluctuations, flooding, erosion, coastal wetland processes and beach and dune systems, are vital to the ecology of Lake Huron. It is

important to understand these processes in the context of the coastal ecosystem so that we don't harm the lakeshore environment through unwise actions.

CLIMATE CHANGE

Climate change has far reaching implications for the Lake Huron environment. All of us who work, rest or play along the Lake Huron coast will be affected.

MEMBERSHIP

Annual Membership fees support the Centres operational costs. By becoming an annual member, you will receive a monthly e-news subscription, a year-at-a-glance calendar and conference discounts. Our e-news provides information about issues effecting the Great Lakes and updates about the Centres work.

Project Supporters direct their dollars directly to the Centres' community project costs. Become a Shore Protector, Beach Benefactor or Dune Builder today!

FOR THE SAKE OF THE LAKE...

I want to support the Centre's projects.

- Shore Protector\$500
- Beach Benefactor\$250
- Dune Builder\$100
- Other Amount\$_____
- Annual Membership\$50
- Send me a Bequest Kit
- Send me a Gift Catalogue
